SECTION 1 - GENERAL RULES, REGULATIONS, DEFINITIONS

Rule 1: DEFINITION: MASSACHUSETTS PORT AUTHORITY

Where the term “Authority”, “Terminal Operator”, “Massport”, or “MPA” is used in this tariff, it shall be held to mean the Massachusetts Port Authority. Massport is not a common carrier nor public utility, and the office of the Authority's Director of the Port of Boston will render all initial interpretations of its tariff. Appeals to such interpretation should be directed to the Federal Maritime Commission.

Rule 2: EXCULPATORY TARIFF PROVISIONS

No provision contained in this tariff shall exculpate or otherwise relieve the Massachusetts Port Authority from liability for its own negligence or impose upon others the obligation to indemnify or hold harmless the Massachusetts Port Authority from liability for its own negligence.

Rule 3: APPLICATION OF RATES

(A) The rates, charges, rules and regulations named in this tariff for services and facilities, shall be applicable on and after the effective date of this tariff, or the effective date of supplements, or re-issues. The provisions of this tariff will apply at the Paul W. Conley Marine Terminal (Castle Island) (sometimes referred to herein as “Conley Terminal”), including the berth nos. 10/11/12 portion thereof redesignated as a container facility.

(B) The rates named herein are based on current labor costs for straight time. When upon written application and with advance arrangements requested services are performed during overtime periods and on Saturdays, Sundays and Holidays, such services shall be rated at the prevailing charges named in this tariff; plus the applicable overtime differential on labor, along with all relevant assessments and insurances, plus twenty percent (20%).

Rule 4: BULK CARGO

Commodities that by nature of their unsegregated mass are normally carried loose and in large quantities; which in the loading and unloading thereof are ordinarily shoveled, scooped, pumped, forked or mechanically conveyed, and which are not in packages, containers, wrappers, or in units of such size to permit piece-by-piece handling.

Rule 5: CARGO WITHOUT DOCK RECEIPT

Cargo which arrives at the Terminal without or with a defective dock receipt shall not be accepted. It shall be the responsibility of the carrier, or the cargo interests to present a properly completed dock receipt to the Terminal Operator before any service is performed.

Rule 6: CONTAINER

The term “container” as used in this tariff, refers to the standard permanent type (I.S.O.) oceangoing container twenty feet (20') or more in length for the movement of cargo as a unit.

Rule 7: DAMAGE TO PROPERTY

Vessels, their owners, agents and all other users of the Terminal(s) named herein shall be held liable for any damage to said facilities resulting from their use of same. The Massachusetts Port Authority reserves the right to repair, contract for repair, or otherwise cause to be repaired, any and all damages to docks, wharves, transit sheds, utilities and hoisting/shuttling equipment caused by vessels, their owners and/or agents, stevedores or other parties and hold them responsible for payment. Vessels found to have damaged any of the aforementioned properties, utilities or equipment may be detained by Massport until sufficient security has been posted to cover the actual or estimated financial liability for such damages.

Rule 8: DANGEROUS AND HAZARDOUS CARGOES

(A) Shipments of dangerous and hazardous cargoes moving via the Marine Terminal(s) of the Massachusetts Port Authority must be documented, marked, labeled, and/or placarded according to the U.S. Department of Transportation ("DOT") Regulations (49 CFR parts 100-199 especially Part 172). Port users who offer hazardous materials for transportation are required to provide the following information:

- (1) Complete shipper's name and address and where possible telephone number in case of emergencies.
- (2) Carrier's name and address.
- (3) Complete consignee's name and address, including the overseas port of destination on export shipments.
- (4) The proper DOT shipping name. This means the technical name of the product involved. It must be as listed in the Code of Federal Regulations Title 49, Part 172.101. Note: Use an application described in Part 172.200 through 172.203.
- (5) Hazardous class of material being shipped (as per Part 172.101).
- (6) Quantity of the material, kinds and number of containers and individual weights or total weight.
- (7) Labels Required.
- (8) Shipper's certification is required per part 172.204. The exact wording is as follows:
"THIS IS TO CERTIFY THAT THE ABOVE NAMED MATERIALS ARE PROPERLY CLASSIFIED, DESCRIBED, PACKAGED, MARKED AND LABELED, AND ARE IN PROPER CONDITION FOR TRANSPORTATION ACCORDING TO THE APPLICABLE REGULATIONS OF THE DEPARTMENT OF TRANSPORTATION." (This must be legibly signed).
- (9) Properly documented special instructions, exceptions and exemption information, if required.

(B) Neither class 1 (explosive) nor class 7 (radioactive) hazardous cargoes may remain on the Terminal beyond what is necessary to transfer the cargo from the vessel or to the vessel.

(C) **Shippers of dangerous articles are required to comply with all of the above and must present necessary permits from proper authorities, as well as obtain permission from the Terminal Operator before such cargo shall be received on or transferred at the Terminal.**

Rule 9: HOLIDAYS

The term "*Holidays*" shall mean the following - or any day celebrated in lieu thereof, or designated as a holiday in the current labor contract, negotiated by the Boston Shipping Association, Inc. and the International Longshoremen's Association, AFL-CIO.

New Year's Day	January 1
Washington's Birthday	Third Monday in February

Rule 10: INSPECTION OF CARGO

The Terminal Operator may enter upon and inspect any vessel in berth at its Terminal to determine the kind and quantity of cargo thereon, and no person or persons shall hinder, molest or refuse entrance upon such vessel for the purpose specified.

Rule 11: INSURANCE

The rates, charges, rules/regulations named in this tariff, and the services offered or provided by the Massachusetts Port Authority at the Terminal(s) governed by this tariff do not include insurance of any kind.

Rule 12: MOVEMENT OF VESSELS

Whenever necessary for the proper operation of the facility, the Authority may order a vessel to move to such a place as directed at the vessel's expense. Any vessel which is not moved promptly upon notice to so move, may be shifted and any expenses involved, damage to vessel or to Massport property during such removal, shall be charged to the vessel, along with all costs for idle labor, crane(s) and equipment resulting from such delay. Vessels berthing at the Terminal shall, at all times, have on board sufficient personnel to move said vessel in case of necessity for the protection of the ship and/or other property.

Rule 13: OBJECTIONABLE CARGO

The Terminal Operator may, at its discretion, remove freight or other material, which in its judgement, is likely to damage other property, to another location, at the risk and expense of the owner.

Rule 14: PARKING

Representatives of the vessel and all persons having business with it or with the Terminal shall not be allowed to park vehicles on the premises without the express permission of the Terminal. When such permission is granted, parking of privately owned vehicles will be permitted only within those areas so designated by Massport, and shall be entirely at the risk of the owner and/or the operator of the vehicle. The Terminal reserves the right to remove all vehicles not properly parked at owner's risk and expense.

Rule 15: PAYMENT OF CHARGES

- (A) Charges of the Massachusetts Port Authority shall become due and payable upon presentation of invoice, except as hereinafter specified.
- (B) Any Terminal user doing business under this tariff may apply for credit. Credit, which is extended at the discretion of the Terminal Operator, requires payment within twenty days of the invoice date. Failure to pay credit accounts within thirty days shall result in cancellation of credit privileges and the reestablishment of cash terms. If payment is not received within forty-five days, the name of the responsible party will be placed on a delinquent list and such party shall be denied further use of the facility until all outstanding charges have been paid. Invoices not paid within thirty days are subject to a one and one-half percent (1 ½ %) service charge per month. The right is reserved by the Terminal Operator to apply any payment received against the oldest outstanding invoices.
- (C) The vessel or agent who arranges the berthing of a ship agrees to guarantee and pay (unless the vessel or agent otherwise notifies Massport in writing prior to the arrival of the ship), all Terminal charges which are assessed against the vessel in accordance with the terms and conditions specified in this tariff. The Terminal may, at its discretion, require a deposit of sufficient funds in American Dollars to cover all charges, when the written guarantee for payment of such charges is not provided upon request, and/or where the steamship line, agent, person or persons involved are not on the approved credit list of the Terminal - or if the parties representing such cargo or vessel have habitually been on the delinquent list. The Terminal Operator further reserves the right to withhold delivery of any cargo until all accrued Terminal charges have been paid in full.

Rule 16: PERSON(S)

The term "*person(s)*" as used in this tariff shall mean vessels, agents, owners, masters, operators, truckers, etc. It includes but is not limited to natural persons, artificial persons, corporations, partnerships, organizations and associations; to sovereigns, governments, nations, states, municipalities, and agents and/or instrumentalities thereof.

Rule 17: POINT OF REST

An area on the Terminal premises where cargo ordinarily would be deposited when received, subject to non-interference with Terminal operations. The actual point at which the cargo is placed.

Rule 18: PRE-PALLETIZED, PRE-UNITIZED AND PRE-SKIDDED CARGO

Pre-palletized cargo refers to identical or nearly identical individual pieces of freight stacked (in such a way as to form a single unit, and in case of pre-unitized cargo strapped-glue-shrunk-wrapped together) on a flat portable platform constructed of wood, metal or other material of sufficient strength to be suitable for the character of the cargo it is to accommodate. Pre-skidded cargo refers to one or more pieces of freight which, to facilitate handling, has been mounted on and fastened to runners (such as planks or beams) of wood or metal. To be acceptable under this classification, the cargo must be set on pallets or runners with openings wide enough to permit free access of forklift blades, and so spaced as to provide a balanced load when lifted. The shipment must be positioned on the Terminal facility, in a motor vehicle, or in a rail car, in such a way that it may be moved without shifting the unit prior to insertion of forklift blades.

Rule 19: REFUSE MATERIALS

Rubbish, refuse or other materials, must upon demand, be removed from the container marshaling yard, apron, or other areas within the confines of the facility by the person or persons placing it there; otherwise it will be removed at the expense of the party responsible. No rubbish or materials of any kind shall be dumped overboard from vessels or wharves.

Rule 20: RESPONSIBILITY FOR LOSS OR DAMAGE

(A) Notwithstanding other provisions of this tariff to the contrary the following terms shall have the following meanings for purposes of this Rule:

(1) "*Terminal Operator*" shall mean and include the Massachusetts Port Authority, its agents, servants, and employees as well as its contractors, subcontractors and delegates performing services related to the loading, unloading, stripping, stuffing, storage, movement or transporting of freight, cargo and containers at, to or from the Terminal.

(2) "*Package*" shall mean and include any van or container in which cargo is consolidated or unitized by the carrier for transportation.

(B) The Terminal Operator shall not be liable for loss or damage to freight, cargo, containers, equipment or vehicles at the Terminal, other than loss or damage caused by the negligence of the Terminal Operator. In no event shall the Terminal Operator be liable for loss or damage to freight, cargo, containers, equipment or vehicles at the Terminal unless notice specifying the nature of the loss or damage is given in writing before or at the time of the delivery of the goods into the custody of the person entitled to delivery. In the event the loss or damage is not apparent, this notice must be given within ten (10) days of delivery. This notice in writing need not be given if the state of the goods has been the subject of joint survey or inspection at the time of their receipt.

(C) In no event shall the Terminal Operator be liable for any loss or damage to freight, cargo or containers in an amount exceeding Five Hundred Dollars (\$500) per package or in case of goods not shipped in packages, per customary freight unit, unless: (1) notice describing the nature of the goods and declaring a higher value is delivered to the Terminal manager or his designee prior to commencement of any services by the Terminal Operator, and (2) a charge in the amount of one percent (1%) of the declared value of each package or customary freight unit is paid to the Massachusetts Port Authority in addition to any other charges due. The Terminal Operator shall not be responsible for any loss or damage where the value of goods has been fraudulently misstated.

(D) The Terminal Operator shall not be liable for any delay, loss or damage arising from strikes, work stoppages or other collective bargaining action.

(E) The Massachusetts Port Authority shall not be liable for loss or damage at the Terminal caused by use of the Authority's equipment by an independent contractor, other than loss or damage caused by the negligence of the Authority. The conditions set forth in this Rule are subject to the provisions of Rule 2.

Rule 21: SHIPPER'S REQUESTS AND COMPLAINTS

Shipper's requests and complaints shall be promptly and fairly considered by the Massachusetts Port Authority provided that they are submitted in writing to Massport at the address listed in the tariff record. When the action of the Massachusetts Port Authority in response to a shipper's request or complaint requires tariff change, no such change will be retroactive.

Rule 22: SMOKING

Smoking is prohibited on the Terminal premises except at such portions thereof as may be designated by the Terminal Operator.

Rule 23: SYMBOLS USED TO INDICATE CHANGES IN THE TARIFF

The symbols listed below are to denote changes when amendments to this tariff are issued:

- (I) Increase
- (D) Decrease
- (W) Change in wording, resulting in neither increase nor decrease.
- (N) New Item

Rule 24: TERMINAL and TERMINAL AUTOMATION

(A) The word "*Terminal*" or "*Facility*" as used in this tariff shall be held to mean those portions of the terminal named herein operated and maintained by the Massachusetts Port Authority for public use, including, but not limited to, Conley Terminal.

(B) The Massachusetts Port Authority is committed to achieving automation and a paperless environment in information exchange and invoicing. It is MASSPORT's expectation that Users of the Terminal Facilities shall also commit to automation and work toward interfacing their systems with those of MASSPORT, and of the Authority's other customers and Users.

(C) On July 1, 2014, Massport launched a web-based payment system for charges applicable to **Import shipments** into Massport's Conley Terminal. In order to pay online, customers must be registered with Conley Terminal's "Forecast" website and have a valid and active Billing Account with Massport. To Register go to <https://mct.tideworks.com/forecast>. Click on the "*New Member Start Here*" box and complete the registration.

Rule 25: TON

Except as may otherwise be specified, the term "*ton*" as used in this tariff shall mean a ton of 2,000 pounds.

Rule 26: USE OF PREMISES

The use of the Terminal by any person (including vessel operators, truckers, crew members of ships, passengers, spectators, officers or employees of persons using the facility) is conditional upon strict adherence to all applicable rules and regulations of the U.S. Department of Agriculture, the Customs Service, the Environmental Protection Agency, the Department of Transportation, the Massachusetts Port Authority and other federal, municipal or state agencies. Vessels, their owners, agents, cargo interests and/or other responsible parties shall be held liable for all claims, losses, costs or expenses by reason of property damage, personal injury or death which may occur, directly or indirectly as the result of overweight or improperly stowed containers, or owing to defective reporting of hazardous commodities, weight, volume, character of cargo and/or any other omission or error in the documentation furnished by the vessel, its owners, agents, cargo interests or other parties, without regard as to whether such omission(s) be intentional or accidental. Entry upon or docking at the Terminal by any person shall be regarded as constituting an agreement by such person to comply with said rules and regulations. Persons found NOT in full conformity with standards promulgated by the above-mentioned governmental agencies will be barred from the facility. Use of the Terminal shall also be deemed as acceptance of the terms and conditions named in this tariff. Conley Terminal is not a public thoroughfare and all persons entering thereon do so at their own risk.

Rule 27: VESSEL

The term “vessel” shall mean a floating craft of every description, and includes the owner and/or operator, charterers and sub-charterers and/or such other persons acting as agents or users thereof.

- (A) The term “vessel” as used in Section V entitled “Free Time” shall mean the floating craft that physically calls at the Terminal governed by this tariff - not vessels docking elsewhere.

SECTION 2 - DOCKAGE

Rule 28: DOCKAGE DEFINITION

The term “Dockage” refers to the charge assessed against a vessel for berthing at the facility or for mooring to a vessel so berthed. The period of time for which Dockage shall be assessed against the vessel shall commence when such vessel is made fast to the wharf, bulkhead, or to another vessel so berthed, and shall continue until such vessel has completely vacated such berth. In the event that the vessel should call at more than one Massport terminal on the same voyage, Dockage charges will be assessed as if the entire cargo complement had been discharged and/or lifted at a single terminal, and will be subject to only one minimum charge.

Rule 29: DOCKAGE RATES

See Schedule of Fees for rates.

- (A) **Self-propelled Vessels:** Dockage will be assessed against the vessel, its owners, agents, or operators on the basis of ***the Length Overall (LOA) of the vessel*** for the period the vessel remains at the berth. *The maximum length, published Lloyd’s Register of Shipping, shall be used in determining the length overall for the vessel. Dockage will be assessed against the vessel, its owners, agents or operators on a per twenty-four (24) hour period or fraction thereof.*

<u>LOA</u>	<u>RATE</u>
Less than 500’	per vessel
500 to 600’	per foot
601 to 1000’	per foot
Over 1000’	per foot

- (B) **Inactive Status:** Dockage for ships not using the Terminal to load or discharge cargo shall be charged per twenty-four hours or fraction thereof. Permission for such dockage shall be at the discretion of the Terminal Operator.

(C) **Idle Status:** Whenever a ship is berthed at the Terminal with the permission of the Terminal Operator, in idle status, prior to the commencement or subsequent to the completion of loading and/or unloading cargo, a charge per hour or fraction thereof, will be assessed against the vessel, owner or operator. Idle status charges will be assessed only for those hours prior or subsequent to any twenty-four-hour active loading or discharging Dockage period.

(D) **Non-Self Propelled Vessels:** A charge per foot in overall length with a minimum charge per twenty-four-hour period or fraction thereof, shall be assessed against seagoing and/or intraport barges berthing or making fast to the wharf for the purpose of loading and/or discharging cargo directly to or from the pier.

Rule 30: DOCKAGE RULES AND REGULATIONS

See Schedule of Fees for rates.

(A) **Application for Berth Assignment:** All vessels desiring a berth at the Terminal shall, as far in advance of the date of docking as possible, make application therefor in writing to the Terminal Superintendent, specifying the estimated date and time of arrival and sailing. The vessel shall furnish, at the earliest possible opportunity, and in any event, **not later than 12:00 noon prior to the posting of labor orders for the vessel**, a copy of the ship's stowage plan, hatch list, inward and/or outward cargo manifest, list of reefer containers, list of dangerous cargo containers, list of damaged containers, and list of containers and/or cargo requiring special handling. The vessel shall be held liable for claims, losses, costs or expenses by reason of property damage, personal injury or death which may occur, directly or indirectly as the result of defective report of hazardous commodities, weight, volume, character of cargo and/or any other omission or error in the documentation furnished by the vessel in compliance with this provision, without regard as to whether such omission(s) be intentional or accidental.

(B) **Notice of Release of Berth:** When for reasons over which the applicant has no control, it becomes necessary to cancel or postpone berthing assignments, due notice (twenty-four (24) hours) shall be given sufficiently in advance to prevent any loss of Dockage charges; otherwise the Terminal Operator reserves the right to assess against the vessel, owner or operator a dockage charge and to use the berth for other purposes.

(C) **Notice to Vacate Berth:** Vessels using the facility must agree to work continuously, using the cranes and equipment to the fullest extent possible. Vessels will leave the facility immediately upon completing discharge and loading operation unless special permission for a later departure is granted by the Authority. When a vessel is waiting to use a berth which is occupied by a vessel about to complete its operation, the Terminal will give the vessel on berth advance notice to that effect and request the vessel to vacate the berth within thirty minutes after completing its loading and/or unloading operation. Vessels refusing to vacate the berth when requested to do so will be subject to a charge of **straight time, overtime, and double time for each fifteen-minute period** said berth is occupied and unavailable.

(D) **Vessels Docking Without Permission:** The Terminal governed by this tariff was purpose-built to conform strictly with the prevailing commercial and ship requirements of ocean common carriers transporting break bulk and containerized general cargo in foreign or domestic waterborne trades; and are not equipped to adequately accommodate other types of vessels, particularly those designed to carry hazardous bulk liquid commodities in ship lot quantities. Such vessels shall not be permitted to tie up at the pier without the explicit approval of the Port Director or designee, except under declared emergency situations. Vessels, whether under load or in ballast, docking or making fast to the wharf without the express permission of the Massachusetts Port Authority will (pursuant to Rule 12 of this tariff) immediately be given notice to vacate the berth and a fine of **Two Thousand Dollars (\$2,000)** shall automatically be assessed to the owner/operator thereof in accordance with Section 3 (a) of Massport's Enabling Act (Chapter 465, Mass. Acts of 1956).

SECTION 3 - WHARFAGE

Rule 31: WHARFAGE DEFINITION

The term “*wharfage*” refers to a charge assessed against the vessel on all cargo and containers, full or empty, passing or conveyed over, onto or between vessels (to or from barge, lighter or water) when berthed at the wharf. Wharfage is solely the charge for use of the wharf and does not include charges for any other service.

Rule 32: WHARFAGE RATES

See Schedule of Fees for rates.

- (A) Full Containers, each Container
- (B) Empty Containers, each Container
- (C) Cargo NOS, per Ton
- (D) Minimum charge, per Vessel
- (E) Automotive, per Vehicle
- (F) Inward or outward cargo relayed overland via the Terminal(s), when neither movement to or from Boston is by water will be assessed Wharfage on:
 - (1) Containerized cargo (full containers) any size, each Container
 - (2) Non-containerized or break-bulk cargo, per Ton

SECTION 4 - USAGE

Rule 33: USAGE DEFINITION

- (A) The use of Terminal Facility by any rail carrier, lighter operator, trucker, shipper, or consignee, their agents, servants, and/or employees, when they perform their own car, lighter, or truck loading or unloading, or the use of said facilities for any other gainful purpose for which a charge is not otherwise specified.
- (B) Usage charges will not be assessed when truck or rail car is loaded or unloaded by the Terminal Operator; nor will they apply on government cargo, or project shipments.
- (C) The consignee of inward cargo or the shipper of outward cargo is responsible for the payment of the Usage charges.
- (D) Inward or outward cargo relayed overland via the Terminal(s), when neither movement is by water will be assessed Usage charges at the rates named in Rule 34.
- (E) The Terminal Operator may arrange with the vessel, agents, or other parties to bill these charges direct to the vessel, agent, or other party on the entire cargo carried by the vessel. When Massport is obliged to bill Usage charges DIRECT to the party ultimately responsible for payment, the ocean carrier or designee shall, upon request, furnish an accurate and legible copy of some sort of OFFICIAL shipping document(s) e.g., ocean/overland bill of lading, delivery order, dock receipt, etc., on which the name and address of the consignee (in the case of import cargo) and the shipper (on export cargo) are clearly shown.

Rule 34: USAGE RATES

See Schedule of Fees for rates.

- (A) **Containerized Cargo:**

Moving intact through the Terminal loaded and sealed:

- Containers under twenty-six feet (26') in overall length, each Container
- Containers over twenty-six feet (26') in overall length, each Container

(B) Non-Containerized Cargo:

- Cargo NOS, per Ton
- Minimum Charge, per Bill of Lading

(C) Automobiles and trucks on wheels

- Self-propelled, uncrated, per Vehicle

SECTION 5 - FREE TIME

Rule 35: FREE TIME DEFINITION

Free time refers to the specified period during which cargo may occupy space on Terminal property free of Wharf Demurrage charges immediately prior to the loading or subsequent to the discharge of such cargo on or off the vessel. **Free time commences on the day after the cargo is discharge from the vessel.**

Rule 36: FREE TIME PERIOD

(A) Inward Cargo:
